Dear Fellow MEI Shareholders,

We have extended the opportunity for shareholders to vote FOR our pending transaction with Infinity Pharmaceuticals, Inc. If you haven't voted yet, you can still do so today.

Through this transaction, we are creating a combined company that is well capitalized and positioned to advance a diversified pipeline of three clinical-stage development programs.

On a recent webcast, Dr. Ezra Cohen, a leading medical oncologist and cancer researcher, along with other medical experts, discussed the market opportunity and patient needs for therapies, such as Eganelisib, Voruciclib and ME-344. We encourage shareholders to listen to the webcast to learn more about these important and potentially value-creating therapies [here](#).

Don't miss out. Independent leading proxy advisory firms ISS and Glass Lewis both recognize the strategic benefits of the transaction and recommend shareholders vote FOR the Infinity transaction. In fact, as recently as recently as July 14, 2023, ISS reiterated its recommendation.

As a reminder, a vote FOR the transaction is a vote FOR:

- Creating a **diversified pipeline** of three clinical-stage development programs that have the potential, in combination with current therapies, to overcome known resistance mechanisms.
- Providing potential opportunities for **near-term value creation from upcoming data** that is expected to be released over the next approximate 6-24 months.
